

Slicer Seeder

MADE IN THE U.S.A

MODEL 355/2000

As for maneuverability the 355/2000 Slicer Seeder *operates in an incredible 25" radius*, allowing you to work with ease around trees, hydrants, and flowerbeds...in fact any obstacle. In neutral, this unit can easily be moved out of tight areas. Inclines of up to 40° are no problem for this machine. *Truly, the all terrain Slicer Seeder.*

Just One Lever Does It All!

Cutter blades are spring loaded to provide maximum cutting pressure while allowing blades to give, should they hit a hard object. Mud Scrapers keep seed discs clean while *seed tubes deliver seed to discs for planting*. Tires are pneumatic, turfsavers and tire guards protect tires. Protective rubber debris guards provide extra protection for the operator. Standard cutter blades are 11 gauge hardened steel.

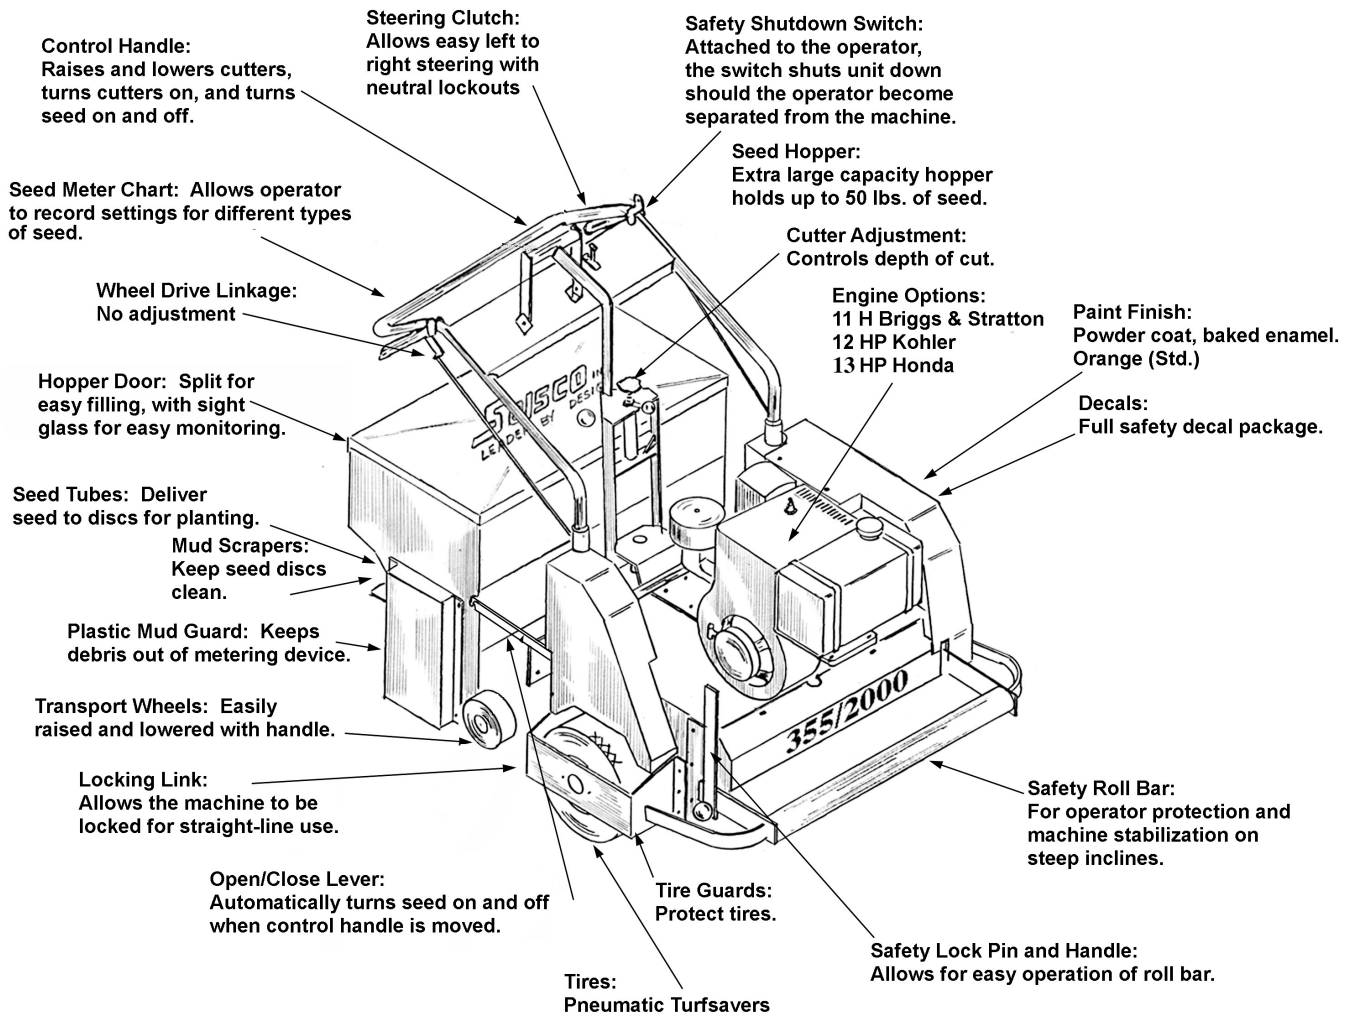

The 355/2000 plants rows on 2" centers and plants a 20" seed bed. *Slicer depth is infinitely adjustable up to 2-1/2".*

Quality of Workmanship, Innovative Design, Built to Last!

Salsco, INC.
