

NEW PRODUCT

FAIRWAY ROLLER

Unit pictured in rolling position.

The roller has three 40-inch rolls, which float over the undulations and smooth the surface. Since all three rolls are driven, traction is never a problem.

Click on the link to see a video of the Fairway Roller. Come visit us at the GIS Show in Las Vegas, Las Vegas Convention Center, February 29- March 1, 2012 at Booth 551!

Fairway Roller Features Unique Design

Also, features three 40-inch rolls

Salsco Inc. introduces a fairway roller for the 21st century. It drives to the fairway on large turf tires, then with an innovative design, the unit raises the wheels, the roller wings swing out and the unit transforms from a transport vehicle to the 10-foot-wide fairway roller.

Unit pictured in transport position.

TESTIMONIAL

... "I like the four rolls (HP4) and the lighter weight"

"We purchased two HP4 Gas Greens Rollers after seeing them at the Golf Course Show in Orlando, FL. All my questions were answered completely, by both Salsco and our dealer, Reynolds Farm Equipment. I was particularly prompted to purchase the HP4's because I liked the four rolls and the lighter weight. I considered almost all the other rollers on the market, and purchased Salsco." Westwood Country Club, Rocky River, OH

Products for Turf & Lawncare, Rental, Construction, Tree Care, Wood Processing, Nursery & Farm Industries:

How to Sell Ours Versus Theirs

Salsco 9067 G.G.R.

We have provided you an excellent selling tool. Below is a link to a comparison sheet showing you the benefits of purchasing the Salsco 9067 G.G.R. versus this type of Greens Roller. One benefit is that no aspirin or ibuprofen is required because you don't have to lift the draw bar and hook it to the tow vehicle 36 times a day. Salsco's Greens Rollers were designed for golf greens, not bowling greens (which are flat). Our patented floating rollers allow our machines to follow the contours and undulations designed into greens, thus providing a smooth surface without changing the design of the area we are rolling.
