Quality of Workmanship, Innovative Design, Built to Last!

Rev. 10-12-2020
Mini Asphalt - Rubber Tire Paver

The Salsco Mini-Paver is able to pave well over a mile of 6' wide walk a day and can be easily adjusted to pave from 36" wide up to 72" wide. Side panels are removable for ease of loading with a wheelbarrow in tight areas. All the controls are easily accessible and all adjustments are easily made as well. This unit has a forward/reverse hydrostatic drive.

Highway Shoulders - Bike & Park Paths - Utility Trenches
Highway Patching - Golf Cart Paths - Carports
Guardrail Aprons - Walkways

Mini Asphalt-Track Paver TP44-TD

Hydraulically controlled split tilt hopper. Raising the hopper allows even the toughest material to flow to the 9" augers. Extra large 1.6 Cubic Yard capacity, (flat to the top of the hopper).

All controls at the screed end of the machine for easy operation.

2 - Hydraulically Controlled, 9" Cast Augers move in either direction. Extra large and heavy duty, hydraulically operated cut off plate.

Raise and lower the screed hydraulically with one lever. Hydraulic end gates with measuring markers make the screed a joy to operate.
Cobra Curbers

Self-Propelled!
Extra Large Hopper!
Asphalt or Concrete!

Nine wheels offer stability and ease of control and are easily adjusted for height to accommodate terrain. 6” cast auger is standard! 13HP Honda engine, pull or electric start! Handbrake is standard to hold the unit back on steep inclines.

Many styles of molds are available as standard, and specially designed molds can be made.
**Scorpion Pavement Router**

Two (2) casters at rear provide smoother maneuvering over rough terrain. Controls are located on one convenient panel. Large pneumatic tires provide greater shock absorption. Tool shaft is one piece. Six (6) sizes of bits available for a wider range of applications. Easily installed and removed routing tool.

Bits are sized to fit the joint or crack, resulting in excellent anchor points for sealant material adhesion. Depending upon aggregate, depth and width of cut required, production is estimated at 100-200 feet per hour.

**Skid Steer Side Dump Bucket**

**Tips Two Ways!**

*Scoop in Front! Dump to the Side!*

**Common Uses:**
- *Filling curbing & small paving machines!* *(Eliminates backing into traffic)*
- *Filling trenches!*
- *Back filling loam along driveways!* *(Eliminates turning onto newly paved asphalt)*

The Skid Steer Side Dump Bucket is the perfect companion for the Mini Asphalt - Rubber Tire Paver, Mini-Track Paver, & Cobra Curbers! Hydraulic hoses and cylinder standard equipment. The Skid Steer Side Dump Bucket has a cutting edge which allows scooping of loose material and is bolted to the bucket for easy replacement.
