# 1 - Gas or Electric!

Salsco Rollers, Gas or Electric, are the #1 Preferred Rollers, Worldwide, since 1992!

- “We have had a Salsco roller for over 10 years & it has been very reliable and durable and has worked out great for us. The new one is everything we expected it to be.” Trenton Country Club, NJ

- “I can honestly say that I have never serviced & operated such a user friendly piece of equipment like Salsco rollers” Kelly Greens Golf & Country Club, FL

- “The Roller works well and is easy to operate.” Atlungstad Golf Course, Ottestad, Norway

Note: The Tranz-Former, 5-G specifications are not included in this brochure.

- “The Roller performs as expected. We think you have a great product line & excellent customer service.” Devils Ridge Golf Club, NC

- “We roll greens 4 times a week & rely on them heavily. We have some tough areas so the 2 driven rolls work well. The brushes are a great option.” Portland Country Club, ME

Quality of Workmanship, Innovative Design, Built to Last!
Gas Roller-HP11
13HP Honda, Electric Start
We’ve introduced the Inner Spike-Air Kit for the HP5.5 & HP11. The Light Kit and Brush Kit have also been updated to mount to the HP5.5 & HP11.

Gas Roller-HP5.5
13HP Honda, Electric Start
“The Salsco HP5.5 Roller is very stable, very comfortable to operate, very easy to learn, able to roll any incline or undulation, no marking and very fast when needed.” Eric Frazier, Willow Oaks, Richmond, VA

Roll-N-Go, EHA
The Roll-N-Go is the same great roller we’ve had for over 20 years, with tires!
The Roll-N-Go, EHA is the same great roller we’ve had for over 20 years with tires. Drive from green to green, or field to field. Simply raise the wheels to roll. The EHA utilizes Electric Hydraulic Actuators, which eliminates 80% of the cylinders, 80% of the hoses & fittings, and 100% of the control valves from the roller.

“The Roll-N-Go & Tranz-Former both perform very well. Such a unique product. You have to see it to believe it.” Concord Country Club, Concord, NH

Gas Rollers
Models 09065 (13HP Honda) 09067 (8HP Honda)

“Very impressed with the Salsco Roller Brush attachment. 2 - Directions = All holes filled!” TPC Riverbend, Maineville, OH

Direction of rolling can be changed as often as needed since Salsco Rollers are easy to load and unload from anywhere around the green. A Full Traction Mat and Loading Guides are standard, along with the dual Lock & Latch on the Tailgate. The Roller Trailer has many other uses around the golf course as well. Two Greens Mowers will easily fit inside the trailer.

ALL SALSCO ROLLERS HAVE ROLLS THAT ARE MACHINED TO WITHIN 2 THOUSANDTHS CONCENTRICITY!
Gas Roller-HP11-III

The QC Electric Roller with Tilt Steering Wheel, High Back Seat, Spike Air Roll and Tournament Roll installed. This unit also features a Removable Battery Pack! When batteries need to be re-charged, the Battery Tray Cart easily rolls into place under the tray. Unlatch the tray and lock it into place on the cart, to transport the discharged battery pack to the Battery Tray Holder. Plug in the charger to the Battery Tray and use the Battery Tray Cart to transport the charged Battery Pack to replace the removed Battery Pack in the QC.

The “Green Roller” - Electric Roller, QC
NO OIL - NO HEAT - NO NOISE - NO POLLUTION

○ “We like how fast the Electric Roller works.” Evanston Golf Club, Wheeling, IL

Weinstein Golf Club, WI

 HVAC...One of the “keepers” of a lawn is a Green Roller. The “Green Roller” has proven to be a valuable tool to our lawn...the only keepers we have are the serious golfers. We have noticed an increase in number of players who have chosen to use this tool. The “Green Roller” has proven to be an effective tool in improving the quality of the course. We have noticed an increase in the number of players who have chosen to use this tool. The “Green Roller” has proven to be an effective tool in improving the quality of the course. ALL SALSCO ROLLERS HAVE ROLLS THAT ARE MACHINED TO WITHIN 2 THOUSANDTHS CONCENTRICITY!
Options:
Tournament Roll Kit (09065, 09067, & EGR, QC)
Dual Spike Air Kit (09065 & 09067, & EGR, QC)
Inner Spike Air Kit (HP5.5, HP11, Roll-N-Go)
Brush Kit (All Models)
Arm Rest Seat (All Models) Std. on the Roll-N-Go, EHA
Light Kit (All Gas Rollers)
Rotary Brushes (All Rollers except the EGR & the HP5.5)

• "Top Roller on the market, by far. We like the Spike-Air Option as well. Would definitely purchase from Salsco again!" Penobscot Valley Country Club, Orono, ME

The Inner Spike Air Kit is only available for the HP5.5 & HP11.

The optional Spike-Air Kit when used on the green will gently spike the green to allow water & oxygen penetration through the crust to the roots of the plant.

"Top Roller on the market, by far. We like the Spike-Air Option as well. Would definitely purchase from Salsco again!" Penobscot Valley Country Club, Orono, ME

Cushioned Arm Rest Seat provides more support and comfort when rolling. Standard on the Roll-N-Go, EHA.

The Tournament Roll Kit consists of 2 smaller diameter rolls and allows for a double roll in one pass. This will give increased ball speed in 1/2 the time.

The optional Brush Kit helps to push the sand into the green after aeration or over seeding. The Brush Kit, used when rolling clay courts, reduces the amount of time before play can begin.

"We already have two and we're buying two more! The Roller is excellent. We like the Electric Start & Lights." Quail Creek Country Club, Naples, FL

The optional Light Kit for the Gas Rollers, allows rolling in the early morning, hours before tournament play.

The Rotary Brush Option replaces scrapers with brushes that really work. Grass clipplings will not clump on the end of the roll. When used after top dressing, sand will disperse evenly across the green.

Most Options are available both retro-fit on older units and factory installed on new units.
