The Only Large Roller Approved for Greens!

Rotary Brush System replaces scappers with brushes that really work. Grass clippings will not clump on the end of the roll. When used after top dressing, sand will disperse evenly across the green.

The optional Rear Wheel Extension Kit adds stability where needed, especially on steep inclines. The Rear Wheel Extension Kit can be ordered as retrofit to units in the field, or factory installed on new units.

Cool Top with or without a fan mounted to the roll bar. Retrofit or factory installed.
